Brethren and friends,

COVID-19 AND THE RIM COUNTRY CHURCH

We are happy to report that none of the Rim Country church has been identified as having the coronavirus. Due to our small number, we have been able to continue to meet together on Sundays with social distancing requirements. This may change drastically when the summer residents return to town. The subject of the Wednesday studies by Brian Muller is on the characteristic of God, but Brian has wisely temporally suspended the Wednesday Bible Class until the circumstances clear up. I think the idea is to limit contact with the brethren through the week since we meet together on Sundays.

The lessons I delivered on Sundays for the month of March were:

1. What about Making Judgments?
2. Balancing Our Judgments
3. The Coronavirus and the Church
4. Procrastination
5. Don't Judge Another Man's Liberty- Rom. 14

ON A PERSONAL NOTE

There is not much to talk about since the restrictions among people has been put into place. My wife and I stocked up on food little by little ever since the virus was announced here in the States. We missed the "rush" and empty grocery shelves, but still must go for for perishables when we can find them. The police found a man selling toilet paper along the road for $30 a packet. He was arrested.

My wife's pain in her back and legs has increased. We have found temporary help but the pain and overall condition remains. She is often awakened by the pain each night and has to get up and walk and take medication before returning to bed. She does not complain but is in tears at times. We finally got in to see a primary care doctor but we know little more than before. Jo has been sent to a physiotherapist but due to her age and the virus, that also is suspended. Our next doctor's appointment is in 6 mos.

Our second effort to get a house is near completion in the next two weeks. Everything is going right so far. This will be a major time consumer in moving things out of storage and every other place we have them stached. We were able to secure a 3.25% loan rate for the house.

AFRICA -

Zimbabwe and South Africa (and Mozambique I believe) are in a lockdown phase and are limited to groceries even more. Keep them in your prayers as their people face very difficult times.

Finances:

D.G.Hubartt one time support	1026					

We received a gift from a dear friend and brother for $1000, ck#9808. This will help toward our housing expenses.
Thanks so much for your help, support and care.
God bless you during the time of this pandemic,

Dave and Joanne Beckley
